USER MANUAL

Hi5 VERSION

www.1goo.biz

2011 v1.0

MAIN PAGE

SEND
Activate the Bluetooth function to send or receive friend's card face-to-face.

SEARCH
Go to search page, all your friends' cards are stored there.

1goo.biz
Go to 1goo.biz website to upgrade FREE Version to the powerful *1goo* Business version.
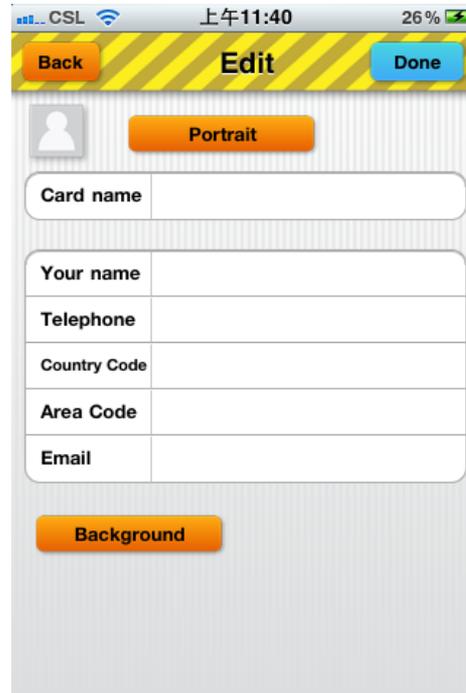

UTILITIES
Go to User Manual and build your own profile as the default card.

Utilities button will bring you to the User Manual and Profile pages .
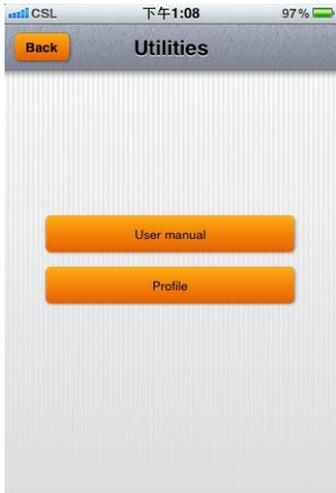

Click Profile to build your card.

"Portrait" – insert your portrait on the card.

"Background" – select background colour or wallpaper for your card.

Utilities

Utilities button will bring you to the User Manual and Profile pages .

All fields accept bilingual input (English + Local) language. English keyboard is the common input method for Iphone iOS, allowing people to find you easily via English keyword.

Telephone: people can dial you directly using *1goo* Card apps.

Country code: facilitates callers from overseas.

Email: your email address which people can send you messages directly via *1goo* apps

Utilities

Utilities button will bring you to the User Manual and Profile pages .

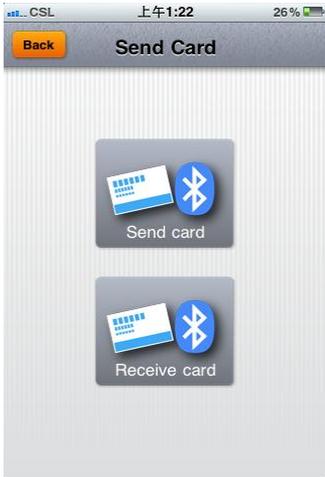

After inputting details in your profile, your card will look like this.

Only Name will be listed, allowing space for you to design card.

Your card is now ready.

Send

Send Card

Send card

Receive card

Click either "send" or "receive" button to activate Bluetooth function of your Iphone.

Send Card

Would you like to turn on Bluetooth?

Bluetooth must be on to connect to nearby iPads, iPhones, or iPod touches.

OK   Cancel

Bluetooth (BT) will search for designated person(s) for card exchange(s). After Bluetooth has shown connection, you will need to click "OK" button to confirm the designated person to receive your card. Your card will then be exchanged via BT.

This button will bring you to 1goo.biz website to upgrade to powerful business version.

Search

This is the most important part of *1goo* apps – the "card list" with the following functions.

New cards received from Bluetooth are tagged "NEW".

Click "NEW" card to see details.

Input keyword(s) in search field to find exact card(s).

Search field accepts English and local language.

Click "card list" row for particular card.

Search

This particular friend's card is like this.

Portrait – shows the person who sent you his/her card.

Email – click to send email to the person.

Dial – click to dial the person.

SMS – click to send SMS message to the person.

Dial -- The apps will ask whether it is a local or overseas call.

Search button will bring you to the search page where all your friends' cards are stored.

Click card for details.

Main Page

The Hi5 *1goo* Card database capacity can store up to 50 cards.
